

## Changing of the guard

Two articles have come to light that support the theory that we have been developing regarding a globalist and an Anglo-Zionist faction struggling for supremacy in the New World Order. The articles that are worth reading are the following:

### **President Macron's Amazing Admission**

<http://www.unz.com/tsaker/president-macrons-amazing-admission/>

### **It's a New World Order, Alright**

<https://www.theautomaticearth.com/2019/09/its-a-new-world-order-alright/>

The highlight of the first article (originally from the Saker) is Macron's admission that "***We are undoubtedly experiencing the end of Western hegemony over the world***" moreover, Macron admits that the future belongs to India, Russia and China and was caused "***by the mistakes of Westerners in certain crises, by the choices that have been made by Americans for several years***" in other words by Anglo-Zionist "capitalism".

Macron probably figured out that the so-called “East Europeans” are nothing but cheap prostitutes doing whatever Uncle Shmuel wants them to do, Germany is collapsing under the weight of Merkel’s “brilliant” immigration policy while the UK under BoJo is busy trying to self-destruct at least as fast as the US under Trump. Macron is right. If united, Russia and France could build a much safer Europe than the one we see slowly and painfully dying before our eyes today. But he is also wrong if he thinks that Russia can be “re-invited” back into the AngloZionist sphere of influence.

The highlights of the second article by Raúl Ilargi Meijer are the US, Israeli Talks about a mutual defense Treaty with Trump, Netanyahu’s Plan to Escape Trial, in His Own Words: ‘Time for Them to Be Frightened’. And last the fact that Israeli attacks on Syria were halted after a Russian threat to shoot down Israeli jets;

“This is where and how the winds -and with them the tectonic plates- have shifted. And don’t underestimate it. Bibi can presumably count on Trump more than any other US President in his time, and the US is supposedly this almighty force, also in the Middle East, but today Putin just tells him “don’t you dare!” Putin refuses to let him touch Assad’s territory and -Russian-weapons. The clincher is those weapons have become so sophisticated that Bibi, Trump support or not, puts his tail between his legs and flies back, hoping nobody notices what shape he’s in. And in that humiliation, Lebanon is the cherry that Putin puts on top of the pie. “Now that you’re here, I want you to stop harassing Lebanon too. Yes, now you may go.” Lebanon must have stunned Bibi. What these shifting winds tell us is that the shots in that part of the world, Syria, Lebanon, Israel, (I wouldn’t go as far as including Iran and Saudi Arabia just yet) are no longer called by Bibi or the US. The main reason, as we’ve mentioned often before, is that Russian weapons have become so powerful.”

## Seeing the Contours

Although conspiracy theory is rapidly becoming **conspiracy fact** the contours are still shadowy. Perhaps the aims and objectives of the Anglo-Zionists are the easiest to understand with the most prominent **visible** members being Trump, Jared, Sheldon Adelson, Bibi and the Brexiteers.

The Anglo-Zionist want to maintain their global hegemony and the advantage of the dollar as reserve currency. The UK leaving Europe (**Brexit**) and the **Greater Israel project** are all part of the same strategic play, as is closer integration of the “five eyes” intelligence services. With Israel as the Imperial (Colonial) power in the Middle East, Anglo-Zionist control of fossil fuels (and the reserve currency), is in their view, guaranteed. An added advantage is that **messianism** can be manipulated to ensure that this region exercises even more political influence (compare the Muslim Haj) through the designation of a centralized authority in Jerusalem over the “monotheistic” religions. Saudi Arabia and many of the Gulf states have already covertly partnered with Israel. As a trade-off Saudi Arabi is supported in its desire to convert a (diminishing) oil dependent economy into a technological one by building Neom.

More importantly, an allegiance between Israel and the KSA together with the Gulf states ensures that the **Anglo-Zionists** can prevent a Shiite crescent forming by defeating (destabilizing) Iran (and Syria). The fly in the ointment is the Palestinian problem. The overarching problem is the huge debt build up which has been purposely inflated (we believe that has been done by their nemesis which we shall call the **Globo-Bolsheviks**). The **Anglo-Zionists** believe in nationalism, they want strong, independent Anglo-Saxon countries leading the world and they reserve a special place for the nation of Israel.

Historically, Anglo-Zionist power was given birth at the end of the British Empire when the Balfour Declaration was promised to Rothschild as a *quid-pro quo* for entangling the USA in WW1. Since then the Zionists **have operated together with** the UK and her former colonies to achieve their goals. After WW2, instead of colonialism they employed mercantilism and crony capitalism (with the odd local war or coup) to continue to extend their influence and to establish the petro-dollar as the global reserve currency.

However, another group, which we have called the **Globo-Bolsheviks** have also been operating **as long as the Anglo-Zionists and they emerged at roughly the same time**. Communism can trace its origins back to a Jew called Karl Marx, who said that the “worldly God” of his fellow Jews was money (mammon).<sup>1</sup> Participation in that first Communist Revolution was 75% Jewish and evidence exists that it was financially supported by Rothschild<sup>2</sup> and other Jewish bankers.

The Chinese Communist party also had a large Jewish contribution in its formative years.<sup>3</sup> It seems counter intuitive that rich bankers would support communism, a system that is against private ownership and wealth. However, if the goal is the destruction of the system and the emergence of an elite ruling class then wealth is only a secondary issue. Absolute power need not concern itself with wealth.

<sup>1</sup> Let us consider the actual, worldly Jew — not the Sabbath Jew, as Bauer does, but the everyday Jew. Let us not look for the secret of the Jew in his religion but let us look for the secret of his religion in the real Jew. What is the secular basis of Judaism? Practical need, self-interest What is the worldly religion of the Jew? Huckstering. What is his worldly God? Money. The Jew has emancipated himself in a Jewish manner, not only because he has acquired financial power, but also because, through him and also apart from him, money has become a world power and the practical Jewish spirit has become the practical spirit of the Christian nations The Jews have emancipated themselves insofar as the Christians have become Jews In the final analysis, the emancipation of the Jews is the emancipation of mankind from Judaism. Karl Marx, 'On the Jewish Question', 1843

<sup>2</sup> Jewish solidarity in the family was not homogeneous. Many Rothschilds were supporters of Zionism, while other members of the family opposed the creation of the Jewish state. It is therefore not a contradiction in terms to suggest that the **Jewish created** Federal Reserve private banking cartel has as goal the destruction of the dollar as reserve currency (and therefore **the destruction of the Anglo-Zionists**). What we have then is an internecine war between globalists and nationalists. Destruction of the monetary system through debt allows the money power to be handed over to a **global bank** who would then issue a **global digital crypto currency**. Once again, this seems like an over the top "conspiracy theory" until you examine the facts such as BOE governor Carney speculating on the demise of the dollar reserve and suggesting Libra (Zuckerberg) as the next currency.

The Federal Reserve is a private banking cartel. The formation of the Federal Reserve System cartel has been preceded by a long series of artificial "crises". In 1913, America was ready, for a "solution to put an end to all crises". That was the Federal Reserve, a private money monopoly that first imprisoned America and then the world in a debt prison.

The current money system gives the major bankers all the tools they need to grow or shrink the economy. Economic freedom is limited because the owners of the money system determine how much money and debt is carried by the economy. But there is still freedom within this system to determine how an entrepreneur organizes his activity, or for a consumer in the choice of his purchase.

Even this minimum economic freedom is too much for the big bankers. They want a new system to fine-tune every purchase and determine per individual what can be bought, for what price, from whom, how much, and so on. And just like in 1913, this new system will be presented as "necessary" to prevent new "crises". New motivations will be that "it is better for the environment", "it is to secure our pensions", "better for society" and more of such nonsense. The "solution" will be based on three pillars:

- the blockchain technology;
- artificial intelligence logic;
- a tracking system

With such a system you can have "open borders" and "global government" thus allowing centralized control of everything. A good example of proponents of this all-encompassing approach would be the billionaire George Soros with his "open society" and Mark Zuckerberg. Coincidentally (sic) they are both Jews. This explains the tension between Trump (the chosen one) and the Federal Reserve. Trump is trying to Keep America Great (with his trade wars etc. with China), meanwhile the Federal Reserve has been tightening QE and until recently raising rates. Europe has also almost reached the end of its monetary experiment. The consequences are already baked into the cake.

The modern history of the fall and rise of China can be bracketed between **two important Jews**, namely David Sassoon (a true Anglo-Zionist knighted by the crown) who obtained the British concession for the Indo-Sino opium trade in Shanghai and President Nixon's National

Security Advisor Henry Kissinger (a true Globalist)<sup>4</sup> who secretly visited China in July 1971 to lay the groundwork for Nixon's visit to China. No wonder China is obsessed with Jews.<sup>5</sup> **Israel is now China's** second-largest foreign supplier of arms after Russia with **China** having purchased a wide array of military equipment and **technology**, including communications satellites. **China is** a vital market for **Israel's** aerospace and defence industry. The involvement of many big tech companies (such as Google) in the Chinese experiment can be explained by China's usefulness as a testing ground for new surveillance technology, profiling algorithms, censorship and social credit scores.

So, with the help of foreign investment and the theft of intellectual property and technology China has become a superpower. The rise of China is not an accident.

In the meantime, global credit was eased particularly in the Greenspan era, followed by QE in the Bernanke era (to alleviate damage caused by the bankers) which allowed the USA to continue a debt binge while its manufacturing base was hollowed out. We now face the largest debt bubble in history the collapse of the financial system will destroy lives. Are we to believe that the huge debt binge and rise of China was not planned? The icing on the cake is the introduction of cultural Marxism imported from the Jewish intellectual movement of the Frankfurt school which together with uncontrolled immigration has demoralized and destabilized cohesiveness in Western societies.

## Conclusion

Although all the details cannot be known, a big picture is starting to emerge. Two groups are fighting to rule the world. At the top of each pyramid are influential Jews who have always held fast to an ideology of racial superiority and the divine right to rule – whether it is the Zionist version or the Bolshevik version. There are some who believe that Zionism (Anglo-Zionism) is the best vehicle for achieving this and others who believe that Globo-Bolshevism is the best vehicle. The goyim are caught up **in a family squabble** (what is the best way to rule the goyim?) and so we become the spoils of the war. **Unfortunately, neither outcome is good.**

We have therefore Rothschild's<sup>6</sup> who are pro-Zionist and others who are anti-Zionist. However, in the end they are all pro-Jewish and they will always act out of self-interest. This

<sup>4</sup> Kissinger is a member of the Trilateral commission whose 1970 report "The Crisis of Democracy: On the Governability of Democracies" contributed to the independence of modern-day central banks, and to the EU's decision to pool their monetary sovereignty. According to Vladimir Bukovsky from his research in the archives of the dissolved Soviet Union, the impetus for the modern EU came from a conspiracy between members of the Politburo and elite of the Trilateral Commission - David Rockefeller, Henry Kissinger, Yasuhiro Nakasone, and Valéry Giscard d'Estaing, who wished to integrate the Soviet Union into world financial institutions
