

Kawasaki Disease

Kawasaki disease is not caused by wanting to own a beautiful motorbike but is named after the Japanese doctor who first discovered it. Tomisaku Kawasaki published the first English-language report of 50 patients with Kawasaki disease (KD) in 1974. Since that time, KD has become the leading cause of acquired heart disease among children in North America and Japan.¹ Please read the whole article until you reach the section on Kawasaki disease at the end and keep an open mind because what is revealed is truly monstrous.

The mother of all conspiracy theories?

I call this the mother of conspiracy theories and I do it rather tongue in cheek because I believe that there is a lot of truth in what I am about to say but as usual you must make your own mind up. Let me recap what got me here. When Covid-19 appeared on the scene I followed every twist and turn from the beginning and changed my mind as more evidence became available. In my view that is the correct way to approach a problem. I saw the blame for the outbreak shift from bat soup, to a Chinese bio-lab, to the USA etc. I saw the preparations made by Bill Gates in Event 201 and his patents etc and other simulations run by the military etc. I saw the corruption of the WHO. I saw the involvement of many countries with bioweapons etc.

Into this mix I threw my own investigation demonstrating that the code of the **RNA spike protein** identified as the culprit² (*ccucggcgggca*) calculates an English gematria ordinal value of 72.³ This aroused my curiosity because I know that the number of Gentile nations in Genesis 10 (LXX) is 72.⁴ The Jewish Sanhedrin (70) together with Moses and Aaron was meant to be a holy nation who would eventually rule the 72 gentile nations. However, I thought that it was just one of those coincidences until I put the word gentile in the calculator and it also gave the value 72. I started to get excited then and put the word covid in the calculator and it gave 53. Then I realised that 53+19 (Covid-19) equals 72. What is the probability of that occurring? Nevertheless, I still had doubts because it seems so incredible but then I came across an article that mentioned the **Rule of 72**. I never even knew it existed and when I

investigated it blew my mind. I found a video on Investopedia that explained that the rule of 72 was an easy way **to calculate compound interest.**⁵ That decided it for me because God allowed the Jews to charge interest to gentiles but not to their own.⁶ This became the method through which the Jews conquer the 72 gentile nations – **with debt finance.** The Federal Reserve is monetizing all debt and buying the world for pennies. It has offered dollar swap lines to the other Central Banks. Soon it will own everything, and the Federal Reserve is owned by Rothschild. At the point when no one can repay the debt we will convert to digital blockchain. A new monetary system is coming, and we will be locked into it permanently. Moreover, in the meantime they are bankrupting all small businesses and getting everyone ready for Universal Basic Income.

So, the spike code is telling us how they will dominate the world. A twelve-letter code (twelve tribes) that contains five g's (5G *ccucggcgggca*) to rule the 72 goyim nations. **The virus is malware.** This is an AI intelligence operation and the life hackers could not resist signing their destructive virus to show us how smart they are. However, evil is not smart it is stupid. And by the way God never intended you to rule the world through causing misery and debt and funding wars. He intended Jew and Gentile to be one people united in messiah. It is one thing to exploit hostile nations but another to abuse the trust of those who have behaved kindly towards you.

So, the next stage of the journey is that I realized that **something else was going on.** Yes, there is a bad flu (influenza) season happening but also complemented with something else (Covid-19) which does not look like flu at all. When everything is being recorded as Covid-19 (including influenza) and when the test itself is not accurate (giving false positives and false negatives) how can you be sure of anything? To suggest that Covid-19 is something other than a virus is **completely ridiculous and unscientific.** *That is a statement we can all agree on especially the scientists among us.* If that is the case then, how come the virus was not isolated **using Koch's principles?**⁷ Can you, Mr scientist who sits in your ivory tower (and has already manipulated climate change data) please explain? You do not even know what you are looking at because you did not follow the scientific principles. **So, something else is going on.**

Trust The Plan! The STORM is coming!

The storm is coming

This is a phrase that is often heard on the lips of Qanon supporters who think that Trump will launch a storm on his opponents. However, it means something entirely different to what they assume. It is a “cytokine storm” the virus triggers a severe immune response in their lungs. This causes the production of inflammatory molecules called cytokines, which results in a “cytokine storm.” The lungs fill with water and become impermeable to oxygen, causing even mechanical ventilation to fail to rescue these patients.⁸

The NY doctor who recently appeared as a whistle blower declared that ventilation which is introducing oxygen under pressure when the patient was in an induced coma is damaging lungs. He appealed to use other oxygenation methods. He called the syndrome ARDS.

Acute respiratory distress syndrome	
Other names	Respiratory distress syndrome (RDS), adult respiratory distress syndrome, shock lung
	
<p>Chest x-ray of person with severe ARDS demonstrating widespread "ground-glass" appearing opacities in both lungs.</p>	
Specialty	Critical care medicine
Symptoms	Shortness of breath, rapid breathing, bluish skin coloration ^[1]
Usual onset	Within a week ^[1]
Diagnostic method	PaO ₂ /FiO ₂ ratio of less than 300 mm Hg ^[1]
Differential diagnosis	Heart failure ^[1]
Treatment	Mechanical ventilation, ECMO ^[1]
Prognosis	35 to 50 % risk of death ^[1]
Frequency	3 million per year ^[1]

People cannot breathe. They cannot take up the oxygen. It is a bit like “altitude sickness” when people are on top of Mt Everest. It is known as HAPE (High altitude pulmonary edema) and it is proposed to use the same medication to treat it.⁹ Others have noted a connection between oxygen depletion and 5G.¹⁰ 4-5G are associated with causing an increase **in flu-like symptoms**. 5G has apparently also been associated with biological interference with oxygenation.

- 60-GHz oxygen band: Precise experimental profiles and extended absorption modelling in a wide temperature range [2011, Journal of Quantitative Spectroscopy & Radiative Transfer]
- Evaluation of the Potential Biological Effects of the 60-GHz Millimetre Waves Upon Human Cells [2009, IEEE]
- Fixed Wireless Communications at 60GHz Unique Oxygen Absorption Properties [2001, Shigeaki Hokusui, Harmonix Corporation]

I am starting to think that the warnings about the danger of 5G posted by Joe Imbriano in his video’s is correct. That is 60 GHz 5G (microwaves) will be absorbed by oxygen in an intense way. Is it this that causes the “storm” as the body tries to fight the radiation? It is an auto immune reaction. The consequence is that the body releases “virus type” particles (solvents) as a reaction trying to repair itself leading in some cases to a “cytokine storm” that was caused by the microwave excitation of oxygen. Even Scientific American says that “We Have No Reason to Believe 5G Is Safe”¹¹

Kawasaki Disease

It was watching the UK column that mentioned this disease in connection with Covid that prompted me to do a search where I found the following article:

Australian doctors on alert after Kawasaki disease in children linked to Covid-19

People with rare illness more at risk of toxic shock syndrome and heart disease but deadly condition is treatable

- **Sign up to get coronavirus newsletter delivered to your email every weekday evening**
- **Download the free Guardian app to get the most important news notifications**
- **Coronavirus Australia maps and cases: live numbers and statistics**

The form of Kawasaki that doctors found was atypical, that is, it did not display all the usual symptoms of the disease only some of them. The diagram below shows the typical symptoms in children.

The Guardian article says:

“Australian paediatric doctors will change their approach to children with a little understood illness that causes blood vessels to become inflamed and in some cases leads to heart disease, following overseas reports that Covid-19 may be associated with the rare condition.

NHS officials wrote to general practitioners urging them to refer children with symptoms of Kawasaki and toxic shock syndrome to hospital following a rise in children needing intensive care treatment”.

“It’s increasingly recognized that Covid-19 hasn’t read the textbook about what it should be doing as a respiratory virus,” he said. “The adults who have been getting very unwell and dying in the second week around day seven have pathology results that show a lot is happening in the blood vessels in the lungs, rather than the air sacs themselves. Toxic shock syndrome and Kawasaki affects the blood vessels. So these severe symptoms in some children is in keeping with the idea this virus is unusual and causes lots of problems in blood vessels.”¹²

So, this is another **auto-immune reaction** – toxic shock or a “cytokine storm” resulting in fever rashes sore mouth tongue (strawberry tongue) and aneurysms. The blood vessels (especially in the heart) get bulges and weak spots. It can cause long term damage in children. However, if not all the symptoms are present (atypical) it could look like a bad flu or like covid.

No one seems to know what causes the disease – Spores? Virus? Chemicals? The worse cases were in Japan but there may have been cases elsewhere but if you are not aware then it could easily be mistaken for something else. In any event, some scientists associated the disease outbreaks in Japan with the prevailing wind direction from China. They hypothesized that something was being carried “on the wind” but could not isolate a vector. Well as we all know correlation does not mean causation. Without a vector this could just be happenstance. The next image comes from their report:¹³

This is how the disease is described: Kawasaki disease is an acute, necrotizing vasculitis of **unknown etiology**. That is a fancy way of saying “we don’t know where it comes from”.

The epidemics occurred in March/May 1979, May 1982 and March 1986. So, the epidemics were seasonal. This is spring and is the famous “cherry blossom season” in Japan which can start in March, but the cold weather can push the peak bloom all the way to mid-April, still showing at the start of May. It can be extremely cold, wet, and windy during the Cherry Blossom season. The **cold** weather always lowers the immune system, which is why we catch more **colds** then. However, what about if something else “invisible” is lowering the immune system.... like...*Oh.... I don’t know, but maybe the introduction of new telecoms wave lengths?* This is what a bit of research threw up for me:

First epidemic: The first commercially automated cellular network (the 1G generation) was launched in Japan by Nippon Telegraph and Telephone (NTT) **in 1979** ¹⁴

Second epidemic: The Captain system ("Character and Pattern Access Information Network System") was a Japanese videotex system created by NTT. Announced in 1978, it was trialled from 1979 to 1981, **with a second larger trial held from 1982 to 1983** ¹⁵

Third epidemic: Broadcasting satellite experiments (2.1, 2.3, 12, and 14 GHz frequencies). BS-2b **launched in 1986** 100 W. 14/12 GHz transponders.¹⁶

Conclusions

Of course, this does not prove anything because **correlation is not causation**. It is the same as saying the wind blew from the direction of China with every epidemic. And yet I am unwilling to dismiss it as a coincidence. The study that blames the "wind" seems like a red herring to me. In fact, so does the Covid-19 virus for that matter.

Here is what I think is happening. Whenever they roll out new technology whether that is electricity, radar or other frequencies it causes harm. We are ourselves "electrical" beings and the electro-verse plasma model of the universe has merit. In any case it causes autoimmune responses or "cytokine storms". The vulnerable amongst us become sick or die while the rest of us adapt. I think they know this but cannot tell us. **It is the price we must pay for progress.** However, even though we adapt we all carry a much higher immune burden and are probably more susceptible to cancer and such. But what would I know, I am not a doctor? Perhaps being constantly bathed in an electromagnetic fog is good for you.

And now we are at the stage where the big daddy of them all is about to be deployed. I am now more certain than ever that this whole operation is linked to 5G. Imagine if one satellite above Japan did cause Kawasaki disease in children what are 42,000 global satellites going to do? Bill Gates has said that this is Pandemic one. He said his vaccination was the final solution (to ongoing pandemics?) and corrected himself when his choice of phrase was pointed out. We know that microwaves are already used by the military as Active Denial Systems (ADS), in other words as weapons. This looks bleak and monstrous when placed against the elite depopulation agenda (websites like deagle) and the Fourth Industrial Revolution (World Economic Forum UN agenda Covid plan). **These are not conspiracy theories but actual plans.** They have told us what they want, and we do not fit in with their plans. I talk to people when I am out shopping etc and many do not think anything unusual is happening (it is the virus

you know). I believe we are already more than halfway there so many are anesthetized. We are ready to be led like sheep to the slaughter and the rest will be penned in by the wolves. It seems that when you lose your spirituality you also lose your ability to think critically.

I will have more to say on this in future articles because I am figuring it out as I go along. This is a dangerous time for them. They are vulnerable until they completely deploy their control systems. What sort of world can you build if it is based on lies, deception and oppression? It is hell on earth controlled by an elite. They have been planning this for a long time because Orwell and Huxley both saw it coming but more to the point it is a repeat pattern as the Apocalypse makes clear.

Finally, there is even more going on and this is demonstrated by their obsession with data and numbers (gematria) and kabbalah (black magic). The elite has become a cult that is justifying their evil actions with a twisted ideology. Even psychopaths feel a need to demonstrate that they are following a higher path and that the end justifies the means. After all, you must crack a few eggs in order to make an omelette. **They are of course criminally insane.** Ask yourself this. Just about every crazy theory is allowed on the internet but the one that immediately attracts censorship is any connection between Covid and 5G. That says it all to me.

“ The 5G rollout is absolutely insane.

— Dr. Martin Pall addressing the NIH

“ Allowing this technology to be used without proving its safety is reckless in the extreme, as the millimeter waves are known to have a profound effect on all parts of the human body.

— Prof. Trevor Marshall, Director Autoimmunity Research Foundation, California

“ The plans to beam highly penetrative 5G milliwave radiation at us from space must surely be one of the greatest follies ever conceived of by mankind. There will be nowhere safe to live.

— Olga Sheean , Former WHO employee and author of No Safe Place

<https://arizonahomeopathic.org/2019/02/06/5g-a-toxic-assault-on-the-planetary-web-of-life/>

We are going to examine what else might happen in upcoming videos. The time is short. Please spread the word. I know this sounds like a bad dream believe me but I am certainly not the only one who knows something else is going on. Look what I found on twitter as an image to prevent censorship (Remember the Economist is owned by Rothschild).

⁶ **Deuteronomy 23: 19-20:** Thou shalt not lend upon usury to thy brother; usury of money, usury of victuals, usury of anything that is lent upon usury: Unto a stranger thou mayest lend upon usury; but unto thy brother thou shalt not lend upon usury: that the LORD thy God may bless thee in all that thou settest thine hand to in the land whither thou goest to possess it (KJV).

⁷ **COVID SCIENCE: A Challenge to the Discovery of the Virus:** “Koch’s postulates, first stated by the great German bacteriologist Robert Koch in the late 1800s, can simply be stated as”:

* Purify the pathogen (e.g. virus) from many cases with a particular illness.

* Expose susceptible animals (obviously not humans) to the pathogen.

* Verify that the same illness is produced.

* Some add that you should also re-purify the pathogen, just to be sure that it really is creating the illness.

¹³ **Association of Kawasaki disease with tropospheric wind patterns:** Analyses of the three major KD epidemics in Japan, major non-epidemic interannual fluctuations of KD cases in Japan and San Diego and the seasonal variation of KD in Japan, Hawaii and San Diego, reveals a consistent pattern wherein KD cases are often linked to large-scale wind currents originating in central Asia and traversing the north Pacific. Results suggest that the environmental trigger for KD could be wind-borne. Efforts to isolate the causative agent of KD should focus on the microbiology of aerosols. <https://www.nature.com/articles/srep00152>
