

We have been pushing this issue for 4 years intensely and I've been doing it since 2005 - on the record. In court documents and police reports and even in police raid videos.

Watch as it all comes out - slowly - in an in your face "controlled release" operation with attendant social media influencer stars ready to pick it up and run with it.

**They will be cross promoted and given endless publicity. The rest of us will be left in obscurity and marginalised and we must ask this question...If real tip of the spear game changing people are sidelined, harassed and made into marginalised bit players at best - or jobless, homeless and even dead dissidents - what will future generations of potential ground breaking truth tellers have learned? They will have learned to shut their mouths and say and do nothing. THAT is what you are encouraging when you play dumb, pretend the full truth doesn't matter and consider everyone being nice and getting along as more important than telling the truth, the whole truth, and nothing but the truth.**

If we cant name it we cant fight it. We cant make a plan and we cannot warn others. We end up in an endless cycle of groupie wanna be star "inclusiveness" and social validation back slapping, instead of facing and fixing a problem.

Whitney Webb is THE example par excel-lance of the problem. A multi millionaire American establishment upbringing. Endless cross promotion by the usual suspects including Alex Jones and Joe Rogen. A willingness to ignore and avoid giving credit to those who came before - who bled and were jailed and received broken bones for their trouble.

Whitney Webb knows who I am and we gave her everything - the big and the small story. She chose instead the "limited hangout", keeping it at the isolated level of Israeli penetration of the US high technology sector and blackmailing operations while refusing to call out Russia and China and their relationship with Israel and clear co-operation to bring down the United States as sub contractors for King Georges bastard son Lord Jacob Rothschild and the UK/European banking cartels.

What will the result of this be? A simple separation of the United States from Israel in which Russia can step in and along with China develop the Rothschild dream, The Pan Eurasian Superstate. But not the focused attention required on the big picture of taking down the Banking Cartels and The Fed and exposing their support and founding of both modern China and Russia - **hence why Whitney Webb never, ever, ever mentions the clear Israeli/Russian relationship along with China and Iran on The Belt & Road.** Read this article and you will understand Whitney Webbs role in all this - whether done consciously or handled, she and her limited hangout operation will do two things - ensure the separation of Israel from the United States and into the hands of Russia, China and Iran - welded at the hip - developing the UN Smart City surveillance state and city gulag system - especially in populated India and China.

Secondly, she and people like her, operating as well paid and well supported social media IIA operators ensure future whistle blowers and activists will not come forward knowing they will only find harassment and misery while hard for data and public knowledge is scooped up by the state pre-prepared official spokes person of choice.

Every time you make an excuse for Whitney Webb and James Corbett and Alex Jones...and all that are like them...you seal the fate of humanity into limited hang out tokenism oblivion...a meme on 4Chan.

We get political and engage with the power structures or we die, our children die, humanity dies. That is what we face. And if you think the trillionaire banking and financial class were not prepared to dominate the internet as much as they dominate the main stream media....you also believe the moon is made of cheese.

**We need the full picture so we can fill in the details.** The Grand Chessboard is Rothschild, City of London, UK and European Banking cartels, Wall Street, serving and retired Generals and The Pentagon, UN Smart Cities surveillance grid gulags, Israeli high tech domination and population control. The new revamped Communist ideology called "Communitarianism" and the The destruction of the United States, breaking it up and handing power to Israel and China and Russia is the plan. We need that "big picture" and we need it repeated constantly.

Henry Kissinger and George Soros are the right and left hand of Rothschild and have brought the United States to the brink of civil war. Kissinger and Jones and Kissinger's old right hand Dr Steve

Pieczenik are BIG Vladimir Putin fans...and...so is Whitney Webb. How apt that Dr Pieczenik should be linking to Whitney Webb articles.

In the next video I will give you the full list of red flags around Whitney Webb as THE prime example of an IIA (Internet Interactive Operations) asset living and breathing and writing amongst us. I'll show you the long history of planting intelligence assets as journalists into news outlets. Finally you will get it. Finally. We have the right to be highly suspicious. We don't have long. We get focused or we die. Along the way we avoid paranoia and name calling...we just demand the whole and reasonable truth. We don't have much time and we don't have time to indulge well funded, well cross promoted and well handled limited hangouts.
